INTSIKA YETHU MUNICIPALITY

AUGUST 2025

Disaster Projects Drive Development

Intsika Yethu Municipality has effectively handover of several Disaster Relief Projects that are aimed at improving mainly road-infrastructure while creating much-needed job opportunities in local communities.

A number of wards have benefited in the programme where ward 01, 03 Bengu Village, 15 and 19 where soon there will be improved infrastructure.

This is also aimed at ensuring connectivity and accessibility in the four wards. Speaking in one of the handover programme, Intsika Yethu Municipality mayor cllr Kanyiswa Mdleleni said the municipality is keen in ensuring that municipality allows that services like education, health services and emergency services are accessible.

Beyond infrastructure upgrades, the main focus of these projects is to empower residents by creating job opportunities and helping to alleviate poverty in the affected wards. By prioritising local labour, the municipality ensures that community members are not just beneficiaries, but also active participants in the development process.

“These projects are more than construction sites they are engines of opportunity,” said honourable Mayor Cllr K. Mdleleni.

Through these initiatives, Intsika Yethu Municipality reaffirms its vision of sustainable development, poverty reduction, and improved quality of life for all its residents.
